PRODUCT PAGE:

The screenshot shows a web browser window with the URL `159.122.187.36:31260/product`. The page has a light blue background. On the left, there is a vertical sidebar with six rounded rectangular buttons: **SUPPLIER**, **CATEGORY**, **PRODUCT**, **SALE**, **ABOUT US**, and **EXIT**. The **PRODUCT** button is highlighted in a darker blue. On the right, there is a form with the following fields: **Product ID** (text input), **Category** (dropdown menu with **Television** selected), **Supplier** (dropdown menu with **Mr. Khan** selected), **Product Name** (text input), **Price** (text input), **Quantity** (text input), **Status** (dropdown menu with **Active** selected), and three buttons: **Save**, **Update**, and **Clear**. A white modal dialog box is open in the center, displaying the message: "159.122.187.36:31260 says Please provide Product ID!". The dialog has an **OK** button.

The screenshot shows the same web browser window and page layout as the first image. However, the **Product ID** field now contains the value "008". The **Product Name** field is empty. A white modal dialog box is open in the center, displaying the message: "159.122.187.36:31260 says Please provide Product name!". The dialog has an **OK** button.
